JUTTING
OF
TOWN AND
DISTRICT

Local News.

Mr and Mrs Duggan and family, of Camrose, were guests of Mr and Mrs A. D. Crawford on Sunday.

A Beaumont was in Edmonton over the week end in connection with an important matter at law.

Mrs A. A. Graham is spending a few days in Edmonton.

Mrs J. G. LaFrance has been visiting with her parents in Red Deer for a few days.

W. L. Geo threshed 25 acres of wheat the other day which measured 49 bushels to the acre. The grain was of a very fine quality.

E. E. George, who has been a resident here for the past eighteen months, left for the coast on Monday, and from there may go on to his home in Wales.

Geo. Allan and family arrived in town on Monday, and have taken up their residence in the Geo. D. Clark home. Mr. Allan will be with Wynne & Small.

Mr and Mrs H. J. Werner, of Innisfail, were in our midst over the week-end.

E. M. Humphrey, of Red Point, Montana, is on a visit to his daughter, Mrs R. M. Whitecotton.

Mr and Mrs Spencer Mullins have arrived from Chicago on their honeymoon, and are being congratulated by hosts of Mr Mullins' old friends.

H. J. Rice is threshing the hospital crop, something approaching 300 acres. The grain is making a heavy yield.

W. C. Howard was in town the other day, the first time since his severe accident, through being thrown from his horse, some eight weeks ago.

The first shipment of poultry for the season took place on Tuesday, when Fertile Valley Creamery sent out over a car load of chickens.

Rev. Mr. Leeman and K. J. Stevens attended Rev. Dr. Price's meetings, held in Red Deer last week. Both returned much impressed with what they heard and saw.

The Fertile Valley Creamery Co have arranged to open a creamery at Clive, and hope to be in operation this fall. The boys are enterprising, and will no doubt have the support of the farming community.

Many farmers are stacking their grain, a wise proceeding, for it will be some considerable time before the last of the crop is threshed this fall, and our fine weather cannot last for ever.

Mr and Mrs J. H. Cruickshank, of Toronto, have been spending a few days in town with their old friends, Dr and Mrs Fellyblank. Mr Cruickshank is an "improved" Scotsman, claiming Aberdeen as the home of his ancestors, and has all the ear marks of the race. Can tell a good story about skunks and their habits, and is an adept entertainer.

The Ladies' Aid of the Baptist church will meet on Thursday, the 4th, at the home of Mrs Giering.

Miss I. M. Devine has been in Edmonton the past few days.

F. M. Lee, of Edmonton, was in town on business the past week.

Several Ponokites from Ponoka and district attended the Men's meetings in Red Deer and Wetaskiwin last week.

The regular monthly meeting of the Ponoka Women's Institute will be held at the home of Mrs McLaurin on Wednesday, October 10, at 3 p.m. Mrs W. R. Harris will give a paper on "Hygiene."

Jimmie Burns, of Home Glen, was one of the noted array of patients to visit our sanatorium this week. Time was when it took the squire a couple of days to reach town, but now, by giving Lizzie a squeeze he makes town and home again in less than a day. He brings great tidings from the Glen. Bumper crops, and suffering from the over-prosperity malady, the natives are busy picking onions, preparatory to the 10th of November deluge.

Harvesting is practically completed in this district, and but for the cutting of green feed, the binder would be laid aside to await another season. Exceptionally fine days, with bright sunshine are enabling the threshers to get in their work, and they are sure busy. About 30 per cent of the threshing will be done by the end of the week.

Mrs A. C. McGillivray is selling her household goods. Particulars can be seen in advertisement in this issue.

A prohibition meeting will be held in the Calvin church tonight (Thursday), at 8 p.m., when Rev. Ben Spencer, of Toronto, will be the speaker. Mr. Spencer is one of the foremost temperance workers in Canada, and no doubt there will be a large audience. Tonight at 8.

Hornest's Bazaar will buy clean newspapers in trade.

Simple Incident Led to Discovery

How Idea Was Obtained For The Self-Righting Lifeboat

A man named Woodhouse was out walking one day when he was asked by an old woman to help her lift a can of water which she had filled by means of a broken wooden bucket.

The bowl was flouting on the surface of the water, and as he lifted it, the woman, Woodhouse turned it over with his finger. It immediately righted itself, and he handed it to her. He repeated the performance, then he struck him that he had made a wonderful discovery. The result of his chance meeting was the self-righting lifeboat, which was designed by him on the lines of the London boat.

What he had discovered was that anything made of floating material and shaped like one-half of a boat could right itself with its convex surface downwards. A boat made on these lines cannot runch down for ever, but it will turn over if it is turned over by a heavy sea.

Here and There

The total quantity of sea fish landed at Ponoka during the month of July was 82,241 lbs., valued at \$277,140 in the following commodities:

Cattle in north Alberta's livestock herd now number more than 2,000,000. This industry and also the sheep industry have increased considerably in the northern part of the Province in the last few years.

Carrying large consignments from the Dominion Government and the British Columbia, loaded at the Canadian Red Cross, the Canadian Pacific S.S. Empress of Japan, was the first ship from the American continent to arrive with supplies for the earthquake and famine-stricken people of Japan.

Nearly \$10,000 in the reaction was collected at the Ice Mines, by the chief game warden, in August. This does not include the quantities collected from the Hudson Bay Indians and the Pacific Northwest. More than double the amount. This does not include the money collected through taxes, licenses and other sources of income.

Cynarum berries made in Alberta took a total of 100 prizes at 250 prizes offered in 61 per cent, at exhibitions at Edmonton, Calgary, Regina, Brandon, Saskatoon and Vancouver this year. Out of 11 prize champions offered, Alberta had four, 100 in the category of berries, 100 in the category of berries, 100 in the category of berries, 100 in the category of berries.

British Columbia has reached the peak of the largest salmon season in her history, and it is estimated that as a result of the season, the salmon and the expenditure of the summer will be worth at least \$10,000,000. The opening of the season, when the motor highway through Canada's rock and ice, is responsible for the increase in traffic through the Pacific province.

Gold producers in the Province of Ontario during the first six months of 1923 report production of 100,440 ounces gold and 6,341 ounces silver, of a total value of \$1,000,000, shipped by the Ontario producers, and from the Kirkland Lake district 10,000 ounces gold and 634 ounces silver, of a total value of \$1,000,000, or from the same district a total value of \$1,000,000.

The Canadian Pacific Railway will contribute \$1,000 to the sufferers in Japan and has also decided that supplies of food, clothing and medicine, and other necessities, will be transported free of charge by the company's ships and ships. President J. M. Hargrave has announced that the company is making a trip over the company's line to the West with a party of twenty. He added that the trip had been taken because of the reports of the famine in Japan due to the earthquake, and notwithstanding the fact that the company had lost heavily by the catastrophe.

The following editorial recently appeared in the "Western Worker" (New York): "A recent cargo of food, on route from China to New York, was shipped via Vancouver and the Canadian Pacific Railway and arrived at New York, instead of being sent across the United States to New York. The incident offers something for Canadians to think about. It means that a world-wide network of the Canadian Pacific Railway, the rail and steamship lines, in the country, the Canadian transportation is essential, and the way the Canadian Pacific has carried on, in spite of the business difficulties, which began with the war and are not yet smoothed out, is a credit to the nation which conceived it."

Again, the modern view attention to Canada's splendid gateway to the East. Although Canada has a large political production, that view, the Great Oriental Railway, offers wonderful trade chances in the future. No nation is better placed for getting its share of this business than Canada.

Saskatoon, Sept. 23.—Mrs. Huns Henningway, 18, wife of Harry Henningway, of Hanley, died in hospital last night of burns caused by the explosion of a coal oil can, the contents of which she was pouring on a smouldering fire early Friday morning, on the stairs of Carl Reiger, when she and her husband were employed. An 8-month old baby of Mr. and Mrs. Frank Lynn, sitting beside the stove in a high chair, when the explosion occurred, was burned to death, while his parents and mother child of three years, were seriously injured.

The Prohibition Tree

ITS SWEET FRUITS

1. The forcing of not only the use but the manufacture of alcoholic liquors into the home in the shape of "home brew." This is on the increase. See the Report of the Commissioner of the Alberta Provincial Police for 1922, quoted by the Inspector Commissioner in his Bulletin, No. 6, page 1.

2. The undermining of the general respect for law and order by a statutory attempt to legislate liquor into crime. This statute is impossible of enforcement, see Report of Sup't. Bryan of the A.P.P., 1920, page 46. The reason is that public sentiment is not behind it. See report of 1921, page 16, reinforced by similar remarks in report of 1922.

3. The sapping of the foundations of society by the appeal to envy, to become spies, tattlers, and informers, with the protection of censure for those who give the names, and the encouragement of approval for the cowards who will not see Liquor Bulletin, Nov. 2, pages 4 and 5, and Nov. 3, pages 4 and 5. Our life is poisoned as well by the free employment of "spotters" and "sniff-pigeons," whose methods of manufacturing evidence are a public scandal throughout Alberta.

And then the Prohibitionists talk about "improving social conditions."

Nova Scotia Interior as Moose Pasture

OFF FOR THE HAPPY HUNTING GOOUNDS

Nova Scotia is a country of lakes and streams, offering many ideal hunting trips, and the interior is a great moose pasture. Ideal, too, is the moose hunting, because both the canoe and automobile are used by hunters and guides, thus saving many miles of weary hiking through the wilderness. On the Liverpool side of Lake Umbagog, the moose is abundant. On the Miramichi River and on Lake Umbagog, the moose is abundant. On the Miramichi River and on Lake Umbagog, the moose is abundant. On the Miramichi River and on Lake Umbagog, the moose is abundant.

South, Miramichi is 10 miles from Miramichi River and is a favorite hunting spot. So is the Knappton, a famous Lake Umbagog, in the heart of the wilderness. On the Miramichi River and on Lake Umbagog, the moose is abundant. On the Miramichi River and on Lake Umbagog, the moose is abundant.
